Discover Your Calling The Life's Task

You Possess a kind of inner force that seeks to guide you towards your Life's Task- what you are meant to accomplish in the time that you have to live.

In childhood, this force was clear to you. It directed you toward activities and subjects that fit your natural inclinations.

In the intervening years, the force tends to fade in and out as you listen more to parents and peers.

The first move toward mastery is always inward-learning who you really are and reconnecting with that innate force.

Knowing it with clarity, you will find your way to the proper career path and everything else will fall in place.
